BOUCLÉ

The Liora is a refined bouclé fabric with a subtle color blend and a firm texture. This elegant fabric, made from 100% polyester, has a Martindale value of 100,000, making it suitable for intensive residential use. The sturdy bouclé structure ensures that the upholstery retains its shape and lasts a long time, even with daily use.

RIB FABRIC

The Remy rib fabric is a modern material that offers a luxurious appearance. Thanks to its special jacquard weave, the fabric has a rich texture and a velvety look. Our Remy rib fabric is made from 100% polyester yarn, giving it a soft touch. With a Martindale value of 80,000, you don't have to worry about scratches or pilling.

In addition, the rib fabric has a reinforced backing and appears voluminous due to its wide ribs.

WOOLLY

The Valley XL is a luxurious chenille with a soft, voluminous texture. This fabric is made from 100% polyester and has a Martindale value of 100,000, making it perfect for intensive residential use. Thanks to the chenille yarns, Valley XL feels exceptionally soft and gives the fabric a warm, inviting appearance.

MAINTENANCE

The refined Bouclé fabric is easy to maintain. For stains, it is recommended to blot, as rubbing can cause light marks. Most liquids can be removed with lukewarm water using a gentle, circular motion from the outside in. Keep the fabric dust-free by using a special upholstery brush attachment on your vacuum cleaner.

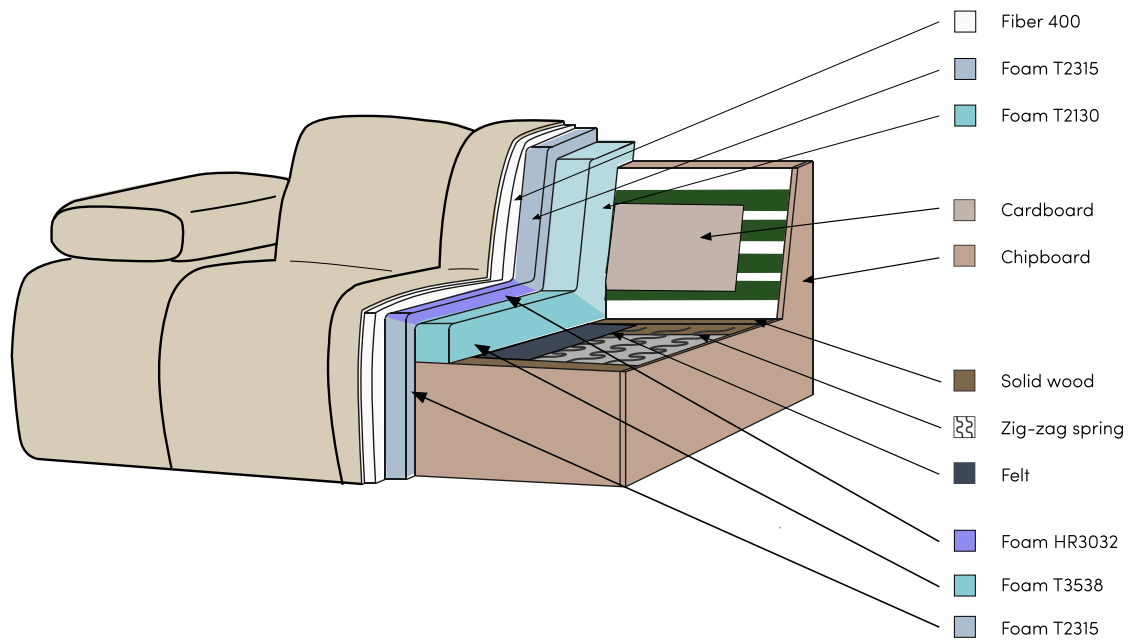

MAINTENANCE

For the best care of rib fabric, always treat stains following the direction of the ribs. Gently blot with a slightly damp, clean cloth to lift most marks. For tougher stains, allow a damp cloth to absorb the residue. Finish by softly brushing with a gentle brush to maintain the fabric's luxurious softness and texture.

MAINTENANCE

Be careful with sharp or rough objects, as they can damage the fabric. Keep the fabric dust-free by vacuuming regularly using an upholstery brush. Stains? Gently blot the stain with an absorbent cloth. Do not rub, as this may damage the fabric. Larger stains can be removed with lukewarm water and a soft cloth, using a gentle, circular motion from the outside in.
