Discover the Meggy cinewall
Authentic WOOOD design with character

The Meggy cinewall series is a stylish and functional addition to any interior, designed with an eye for detail and simplicity. Created by our own designer Stijn Meester, the series reflects the pure essence of WOOOD design: timeless, robust, and warm. Meggy cabinets offer generous storage space while providing room to display personal treasures. The warm light grey color Dust gives the cabinets a soft and timeless appearance that blends beautifully into any home. Produced in the Netherlands, the Meggy series is crafted from solid pine wood, sourced exclusively from FSC®-certified suppliers.

Combine to create a custom cinewall

The Meggy series consists of four different elements that together form a versatile, custom-made cinewall. The 160 cm wide TV storage cabinet provides space for both a wall-mounted and a standing television with a screen size of up to 65 inches. The medium-sized Meggy cabinet is 108 cm wide and is available in both left and right variants. The narrow cabinet, 55 cm wide, is compact in size but efficiently designed, ideal for smaller spaces or as an additional element.

With focus on sustainability
Made in the Netherlands

The Meggy series is entirely produced in our own factory in the Netherlands. This ensures not only high quality but also a low ecological footprint. The pine wood used in production comes from a FSC®-certified supplier, guaranteeing that the wood is sourced from responsibly managed forests.

The packaging has also been carefully considered: it is designed to be as sustainable as possible, with minimal use of plastic and completely free of Styrofoam. The elements are delivered flatpacked, making transport and storage more efficient and environmentally friendly. With the Meggy series, you choose not only style and functionality but also a more sustainable option.
