
BUILD
cabinet series

Build it your way
Create your own configuration

Create your own wall cabinet with Build. The modular elements can be combined in endless ways to create a configuration that perfectly suits your style and space. Large or small, open or closed – you decide the layout.

With four versatile elements, Build lets you create a cabinet that fits your way of living. Choose a spacious wall cabinet with room for your favourite books and accessories, or design a stylish TV cabniet. Whatever configuration you choose, Build adapts effortlessly to your interior.

made in Holland

Discover the Build collection
WOOOD design with character

Build is crafted from melamine with a warm oak look, available in brown or natural. The visible wood grain gives each element a natural character, while the linen-look interior adds a subtle contrast. The result is a calm, refined foundation that blends effortlessly with any interior style.

Build is made from FSC®-certified wood and other controlled materials. Produced in our own factory in the Netherlands, every piece is thoughtfully designed with quality, craftsmanship and everyday living in mind.
