# MANU

Element sofa

# Flexible in design *bold in appearance*

With its generous proportions, deep seating, clean lines, and bold piping, Manu is the heart of your interior. Whether you choose a spacious corner sofa or a cozy three-seater, Manu always fits. This modular sofa, entirely designed by our own team, exudes a strong, stylish, and thoughtfully crafted character. Your living style, your configuration, your moment of relaxation.

As the first premium sofa in our collection, Manu is available in an extensive range of fabrics and colors, allowing you to tailor it perfectly to your home. From warm, calming shades to striking colors and rich textures, every choice gives the sofa its own unique character.

JARRA

79 | Velvet anthracite

Thanks to its modular design, you can easily change the configuration and size.

The clean lines and bold shapes create a harmonious and inviting look, while the pronounced piping adds depth and a distinctive character. The result is a sofa that is both flexible and makes a strong presence in any space. Manu lets your style shine.

#### With focus on sustainability

The Manu carries the FSC®-label. The international FSC®-label guarantees that the raw materials used in wooden products (or products containing wood) come from responsibly managed forests.

The mark of  
responsible forestry

# Maintenance – fabric group 1

## TECO

Our Teco woven fabric has a vintage look and immediately brings a lot of atmosphere into your home. The Teco vintage fabric is a flat, woven fabric with a very fine weave. Teco is made from 100% polyester thread and has a Martindale of 100,000, which ensures that this fabric is very durable and will not peel or tear easily. The luxurious sheen gives the Teco fabric a generous appearance and an interesting depth to the upholstered furniture.

### MAINTENANCE

Remove a stain by dabbing the stain with a clean cloth soaked in water and neutral soap. Bleaching, machine drying and steaming are strongly discouraged. Teco is a flat, woven fabric, it can become rough in use and over time patina and glossy stains may appear on the most commonly used seats.

## FERRA

Our rich Ferra velvet has a striking structure, which gives it a luxurious look and special shine. The soft fabric is made of 100% polyester, which makes it very easy to maintain. The Ferra textured velvet has a Martindale of 85,000 and is therefore highly resistant to scratches, discolouration and pilling. Ferra feels very soft to the touch because of the chenille yarns, and the jacquard weaving technique creates a voluminous upholstery.

### MAINTENANCE

Small stains are easily removed with a damp cloth, larger stains can be dabbed with a damp cloth and a neutral furniture shampoo. When the fabric can be removed from the furniture, it can be washed inside out at 30 degrees. To keep the velvet shine it is recommended to brush the furniture weekly with a special velvet brush.

## RONNI

Our soft Ronni rib fabric is composed of 88% polyester and 12% polyacrylic. This combination makes the rib fabric very easy to maintain and with a Martindale of 100,000, you need not fear scratches or pilling. The rib fabric has a reinforced backing and looks voluminous because of its woolly stripes.

### MAINTENANCE

With ribbed fabric, always remove stains in the direction of the rib. Dabbing with a slightly damp, clean cloth removes most stains easily. Is the stain more persistent? Let a damp cloth absorb the stain. If necessary, brushing with a soft brush will ensure that the rib.

## LIORA

Liora is a sophisticated bouclé fabric with a subtle colour blend and a firm grip. Made of 100% polyester, this elegant fabric has a Martindale of 100,000, meaning it is suitable for intensive residential use. The sturdy bouclé structure ensures that the upholstery keeps its shape and lasts a long time, even with daily use.

### MAINTENANCE

The bouclé fabric is easy to maintain. In case of stains, dabbing is recommended; friction can cause light spots. Most liquids can be removed with lukewarm water. Use a gentle circular motion from the outside inwards. Easily keep the dust free with a special furniture brush or the hoover. When the dust can be removed from the furniture, it can be washed at 30 degrees. It is recommended to wash covers inside out in.

## ORARI

Our Orari is a coarsely woven fabric with a soft yet firm grip. The fabric has a subtle hue and a coarse weave pattern. Orari is composed of 94% polyester and 6% nylon. The coarsely woven fabric is suitable for very intensive use (Martindale 60,000). Orari is known as a very colourfast fabric and will not pill easily.

### MAINTENANCE

The Orari coarsely woven fabric requires slightly careful maintenance. In case of stains, dabbing with a slightly damp, clean cloth is recommended. Friction can cause the nap to change.

## OCEAN

Our Ocean woven fabric has a soft and luxurious look. The Ocean is made from 100% recycled polyester, making the fabric both sturdy and comfortable. The fabric has a Martindale value of 67,000. With proper care, our Ocean woven fabric can retain its soft and attractive look for years to come.

### MAINTENANCE

Keep the fabric clean by vacuuming regularly. Use a vacuum with a soft brush to avoid damaging the texture. Stains? Use a water-based solution to remove the stain and wipe again briefly with a damp cloth. Do not rub, but dab! Rubbing leads to damage or light stains in the fabric. Avoid prolonged exposure to direct sunlight to maintain the best quality of the fabric.

\*The above elements in the fabrics Savoi, Nala, Rilo, Valley XL, Remy Rib, Giro, Kovis, Jarra, Fable, Bobare and Split correspond to the above prices

# Maintenance – fabric group 2

## SAVOI

The Savoi woven fabric is composed of 100% polyester chenille, which gives the fabric a soft grip. The clearly visible weave pattern is given an extra dimension by the striking colour nuances. These hues create a cool look. As the fabric is coloured thread by thread, Savoi is known for its colourfastness. The Savoi woven fabric has a Martindale of 68,000.

### MAINTENANCE

The voluminous Savoi woven fabric is very strong and can take a beating. In case of stains, dabbing with a slightly damp, clean cloth is recommended. Friction can cause loops. Keep the woven fabric clean weekly with a special furniture brush on the Hoover.

## NALA

Our Nala chenille is characterised by its woven structure that provides a luxurious look and a subtle sheen. This soft fabric is made of 100% polyester. With its coarse structure, the Nala chenille has a Martindale of 100,000, meaning it has excellent resistance to loops and pilling.

### MAINTENANCE

Small stains can be easily removed with a damp cloth. For stubborn stains, dabbing the fabric with a damp cloth and a neutral furniture shampoo is recommended. On the favourite seat, a shiny seat surface may appear after some time. If the fabric can be unzipped, washing at 30 degrees is possible.

## RILO

Our Rilo is a soft bouclé fabric. The composition is 100% polyester, which makes the Rilo fabric both sturdy and comfortable. The fabric has a Martindale rating of 100,000, making it suitable for everyday use. With proper care, this fabric will retain its beautiful quality for years.

### MAINTENANCE

Keep the fabric clean by vacuuming regularly. Use a vacuum with a soft brush to avoid damaging the structure. Stains? Use a water-based solution to gently remove the stain and then wipe again with a slightly damp cloth. Don't rub, just dab! Rubbing can cause damage or permanent stains in the fabric. Avoid prolonged exposure to direct sunlight to best preserve the quality of the fabric.

## KOVIS

Our Kovis leather look has a unique appearance and is a sustainable choice due to the use of leather remnants. It consists of a bottom layer of recycled real leather and a protective polyester top layer, creating a sturdy combination fabric. The knitted microfibre provides strength, a soft feel, high colourfastness, and a Martindale of 23,000.

### MAINTENANCE

Clean the fabric with a damp cloth. Stains? Use a neutral soap solution to remove the stain and briefly wipe with a damp cloth. Do not rub, but dab! Rubbing leads to light stains in the fabric. Direct sunlight always results in discolouration, always try to avoid this. Discoloured leather look will never regain its original colour.

## JARRA

Our Jarra velvet fabric has a luxurious look. The fabric feels nice and has a beautiful light sheen. The Jarra velvet consists of 100% polyester and has a full and heavy quality. The material is therefore suitable for intensive use (Martindale 100,000). In addition to the stylish design, the velvet fabric remains beautiful for a long time. Our Jarra fabric will not pill quickly and is colorfast. The fabric is, to the surprise of many, a very easy fabric to maintain.

### MAINTENANCE

Small stains can be removed by dabbing with an absorbent cloth, and larger stains with mild detergent and a microfiber cloth. If needed, use a hair dryer at a safe distance to speed drying. The fabric can be brushed with a velvet brush for weekly maintenance. For long-term stain protection, impregnate the furniture as soon as possible after receipt and consult a sales representative for the right product.

## FABLE

The Fable fabric is a tightly woven upholstery fabric with a modern, subtly mottled look. Different yarns create a playful grid pattern that adds depth without overpowering. Its strong polyester fibres and high abrasion resistance (Martindale 50,000) make it ideal for everyday use, with minimal pilling and excellent colour retention.

### MAINTENANCE

For everyday care, it is sufficient to regularly vacuum the fabric lightly using a soft brush to prevent dust and dirt from accumulating between the fibres. If a stain occurs, gently dab with a damp cloth and then clean with a mild, neutral soap. Do not rub, as this may damage the fabric. Rinse with clean water and allow the fabric to air dry to prevent water marks.

## VALLEY XL

Valley XL chenille is a luxurious chenille with a soft, voluminous texture. This fabric is made of 100% polyester and has a Martindale rating of 100,000, making it perfect for intensive residential use. Thanks to the chenille yarns, Valley XL chenille feels exceptionally soft and has a warm, inviting look.

### MAINTENANCE

Be careful with sharp or rough objects, as these can damage the fabric. Keep the fabric dust-free by vacuuming regularly with a furniture brush. Stains? Gently blot the stain with an absorbent cloth. Do not rub, as this can damage the fabric. Larger stains can be removed with lukewarm water and a soft cloth, working in a gentle, circular motion from the outside in.

## REMY RIB

The Remy rib is a modern fabric that offers a luxurious look. Thanks to the special jacquard weaving technique, the fabric has a rich texture and a velvety appearance. Our Ruby rib fabric is made of 100% polyester thread, which provides a soft touch. With a Martindale rating of 80,000, you won't have to worry about scratches or pilling. Moreover, rib fabric has a reinforced backing and looks voluminous because of its wide stripes.

### BOBARE

Our Bobare teddy fabric is made of 100% polyester and has lovely, large fibres. Because of the thickness of the fabric, the Martindale cannot be tested, but the fabric is guaranteed strong enough for intensive residential use. The Bobare fabric is very colourfast and feels soft to the touch because of the long, fluffy loops.

### MAINTENANCE

For weekly maintenance, use a soft furniture brush on the hoover. For any stains, it is recommended to dab the stain with a slightly damp cloth without detergent. Friction causes the stain to bond between the fabric fibres, so rubbing is strongly discouraged.

### MAINTENANCE

With ribbed fabric, always remove stains along with the rib. Dabbing with a slightly damp, clean cloth will easily remove most stains. Is the stain more stubborn? Let a damp cloth absorb the stain. Any re-brushing with a soft brush will keep the rib fabric feeling wonderfully soft. If the fabric can be unzipped.

## SPLIT

Our Split rib fabric is a woven polyester fabric with a high-pile rib structure. The back of the fabric is reinforced with a tightly woven backing. Split is tested to a Martindale of 30,000 which ensures that the fabric is highly abrasion resistant.

### MAINTENANCE

For stains, place a damp towel on the affected area to absorb the liquid. Replace the towel as it becomes saturated and leave the last towel until dry. Avoid rubbing, as this can push the stain deeper into the fabric. For long-term protection, the fabric can be treated with iProteqt, making it resistant to oil-, water-, and grease-based liquids. It is recommended to apply this as soon as possible after receipt for immediate protection.

## GIRO

Our Giro is a luxurious woven fabric with a comfortable, inviting feel. The rich texture and distinctive three-dimensional structure give the fabric a modern look, while the soft grip provides extra comfort. Made of 100% polyester, Giro has a Martindale rating of 100,000, which means the fabric is extremely hard-wearing – perfect for everyday use. With proper care, Giro will stay beautiful for years and retain its high-quality appearance.

### MAINTENANCE

Keep the fabric clean by vacuuming regularly. To do this, use a vacuum cleaner with a soft brush to avoid damaging the structure. Stains? Use a water-based solution to gently remove the stain and then wipe with a slightly damp cloth. Don't rub, just dab! Rubbing can cause damage or permanent stains in the fabric. Avoid prolonged exposure to direct sunlight to best preserve the quality of the fabric.

# Maintenance – fabric group 3

## COLMAR

The material of the Colmar bouclé fabric responds to the latest trend: soft materials. The fabric is comfortable and has an elegant texture. Our Colmar bouclé has a Martindale of 100,000, which means the fabric is suitable for intensive use. The dense weaving technique ensures the strength of the fabric, this makes the bouclé not likely to wear or tear. Also, each color has a high color fastness, but it is recommended to avoid direct sunlight to avoid color shades.

### MAINTENANCE

In case of any stains, immediately pat dry with a clean cloth or tissue. Do not rub! Most liquids can be removed with lukewarm water. Use a gentle circular motion from the outside inwards. If the fabric can be removed from the furniture, washing at 30 degrees or dry cleaning is possible. For years of stain protection, the fabric can be impregnated. Impregnate the seating furniture as soon as possible after receipt to ensure instant protection. Get advice from a sales associate.

## BENSON

Our Benson is a woven fabric with a melange effect. Its composition is 100% polyester, which makes the Benson fabric both sturdy and comfortable. The fabric has a Martindale rating of 70,000, making it suitable for everyday use. With proper care, the Benson fabric will remain good quality for years.

### MAINTENANCE

Keep the fabric clean by vacuuming regularly with a soft brush to avoid damaging the structure. Stains? Use a water-based solution to gently remove the stain and then wipe again with a slightly damp cloth. Don't rub, just dab! Rubbing can cause damage or permanent stains in the fabric. Avoid prolonged exposure to direct sunlight to best preserve the quality of the fabric.

## VASA

Our Vasa is a woven fabric with a subtle melange effect. The composition is 100% polyester, which makes the fabric both sturdy and comfortable. The fabric has a Martindale rating of 30,000. With proper care, our Vasa fabric will remain of beautiful quality for years.

### MAINTENANCE

Keep the fabric clean by vacuuming regularly. Use a vacuum with a soft brush to avoid damaging the structure. Stains? Use a water-based solution to gently remove the stain and then wipe again with a slightly damp cloth. Don't rub, just dab! Rubbing can cause damage or permanent stains in the fabric. Avoid prolonged exposure to direct sunlight to best preserve the quality of the fabric.

## DREW

Our Drew textured fabric has a soft grip and a comfortable feel. Made of 100% polyester, the fabric stands out for its unusual 3D pattern with an irregular, wavy print, which creates a telling depth to the furniture piece. In addition, the fabric features a luxurious matte sheen which provides a high-quality look. The fabric has a Martindale of 100,000.

### MAINTENANCE

The compactly woven fabric is easy to clean with a vacuum and furniture brush. Stains should be blotted immediately with a clean cloth—never rubbed—and most liquids can be removed with lukewarm water using a gentle circular motion from the outside in. For long-term protection, the fabric can be treated with iProteqt, making it resistant to oil-, water-, and grease-based liquids; this is recommended as soon as possible after receipt.

# Maintenance – fabric group 5

## LOMA

Our Loma velvet fabric has a luxurious look. The fabric feels nice and has a beautiful, slightly matte sheen. The Loma washed velvet consists of 80% polyester and 20% cotton, and has a full and heavy quality. The material is therefore suitable for intensive use (Martindale 100,000). The velvet fabric will not pill quickly but is sensitive to light, discoloration of exposed fabric can occur over time. The fabric is, to the surprise of many, a very easy fabric to maintain.

## MAINTENANCE

Small stains can be removed by dabbing with an absorbent cloth, while larger stains can be cleaned with mild detergent and a microfiber cloth. Use a hair dryer to speed drying if needed, keeping a safe distance to avoid damage. The fabric can then be brushed with a velvet brush for regular maintenance. For long-term stain protection, impregnate the furniture as soon as possible after receipt and consult a sales associate for the right product.
