EXOTAN

For more than 25 years a well-known brand for garden furniture in more than 12 European countries. Quality outdoor products in a strong, wide and modern collection. Always innovating and looking for new materials, styles and trends.

EXOTAN

supporting clean oceans

Exotan recognizes the need for corporate social responsibility and the creation of sustainable products. Exotan supports keeping the oceans clean and recycling the waste into durable goods. Every year, the Indian Ocean stream causes an enormous amount of waste to be found on the beaches of India. This waste is collected from the beaches by companies that recycle and convert it into materials that can be made of yarn. The Exotan plaids are woven from these recycled yarn and contribute to cleaner oceans.

All Exotan Care products are water-based and do not contain hazardous VOCs, helping to provide better outdoor air quality. Our upgraded formulas provide the quality performance and commitment to more environmentally and responsible products that Exotan customers have come to expect. Since they are water-based, our products do not irritate the skin and are safe for human beings. They are also designed to break down quickly and naturally in the environment.

Forest Stewardship Council® The FSC® label identifies forests which have been certified in accordance with the rules of the Forest Stewardship Council. Look for FSC-certified products in this brochure.

EXOTAN®CARE

A wide range of maintenance products to keep your garden furniture in the best condition. For all kind of outdoor materials, you will find a high quality care product in the Exotan Care range.

sunbrella®

The world's leading outdoor fabric Sunbrella® solution-dyed acrylic fibres stand up to tough weather conditions and years of sun exposure. The colour pigments are locked right into the very heart of the fibres during the initial stage of the manufacturing process, before the yarn is even made.

Nanotex® is a durable, high quality outdoor fabric. Nanotex® gives a more indoor feeling. The fabric is breathable, strong, colour fast and for all weather use. Most important features are: UV-resistant, low-maintenance and easy to clean.

Standard foam with waterproof cover. Water drains from the cushion. The foam is protected with a waterproof lining filling. Advice is to store the cushions inside in winter time for a long-term use.

Quick dry or fast dry foam. Water runs straight through the special foam. This dry-foam ensures that the cushions will dry fast and will keep them in their original shape. Advice is to store the cushions inside in winter time for along-term use.
